"We humans are creative and inventive sound beings when we sing. Through song, we have the ability to animate our world and our actions, bestowing love, joy, hope, and confidence through singing, but also singing away the pain from our souls..." Sir Yehudi Menuhin

NEXT STEPS

WCCN is now being registered in the German association register, thus obtaining a legally certified status. At the same time, members are working on the construction of 'Opportunity Street,' the heart of the network.

OpportunityStreet is like a shopping mall where our individual interests and expertise can be presented and shared. The "houses" serve as centers for diverse opportunities in this regard.

An exciting innovation - actively participate in building it and contact us at caplin@wccn.online.

WHY WCCN?

WCCN is a network dedicated exclusively to choral conducting. Here, you can find like-minded individuals and experts in a growing community that continuously expands its offerings, both in general and tailored to meet your needs.

WCCN stands for Community and Ethics / Opportunity Street / Exclusive Resources / Mentoring Programs / Flexible Membership Fees, and much more...
